IRP SERIES

The Webster Interactive Rear Projection (IRP) System brings the entire digital world – including access to LANs, intranets, and the Internet – to the front of a conference room or classroom, enabling groups to tackle the same tasks individuals accomplish at desktop computers.

The Webster IRP System enhances presentations and group collaboration through superior image clarity, the visual advantages of a large, non-reflective screen, and the note-capturing precision of a patented laser interface. The expansive viewing surface, ideal for large groups, accommodates

simultaneous display and manipulation of multiple applications, thus stimulating team productivity and interactivity. With rear projection, users eliminate the frustration of dodging projectors and blocking audience view.

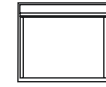

Global collaboration is a reality. Through the ability to display digital applications and simultaneously transmit handwritten notes, sketches, or highlights, participants benefit from immediate feedback and ideas instantly evolve across time zones. IRP In-Wall Systems are suitable for new installations, while Mobile Systems are ideal for existing conference rooms.

FEATURES	BENEFITS
REAR PROJECTION	<ul style="list-style-type: none"> – PROVIDES SUPERIOR SCREEN CLARITY – ALLOWS PRESENTER FREEDOM TO MOVE
LARGE, NON-REFLECTIVE SCREEN	<ul style="list-style-type: none"> – CATALYST FOR GLOBAL COLLABORATION BY PROVIDING REAL-TIME GROUP ACCESS TO THE INTERNET – SIMULTANEOUSLY DISPLAYS MULTIPLE APPLICATIONS – ENHANCES VISIBILITY FOR LARGE GROUPS – ELIMINATES GLARE
ADVANCED LASER TRACKING TECHNOLOGY	<ul style="list-style-type: none"> – ENABLES INTERACTIVE MULTIMEDIA PRESENTATIONS – STIMULATES CREATIVITY AND ENHANCES PRODUCTIVITY – REDUCES TRAVEL COSTS

FEATURES AND TECHNICAL INFORMATION:

MINIMUM COMPUTER REQUIREMENTS

WINDOWS®

- Pentium-class computer
- 32 MB available RAM
- Available serial port
- Microsoft Windows 3.1, 95, 98, NT, 2000, ME
- Windows compatible color printer recommended

COMPATIBLE WITH MULTI-SITE CONFERRING SYSTEMS

- Intel Teamstation System™
- Microsoft NetMeeting™
- PictureTel Desktop Videoconferencing Systems
- DataBeam neT.120 Conference Server™
- Webware™ Web Posting Software

SUPPORT SOFTWARE AND UTILITIES

- Cursor control
- Projection annotation

ELECTRONIC PEN

- Inkless pointing, drawing, and mouse operation
- Wireless infrared operation with laser-scannable tip and two mouse buttons on barrel
- Uses a lithium 3.6V, 1/2 AA battery (expected life: 1 year)

ELECTRICAL REQUIREMENTS

- 100-240 VAC, 50-60 Hz, 20 watts (not including user supplied projector, computer, or accessory equipment)
- 8' (2.44m) power cord provided

RS 232 SERIAL INTERFACE

- 9-pin female D-sub connector on the IRP
- 12' (3.65m) standard 9-pin male to 9-pin female cable provided

CERTIFICATIONS

- UL, CE, CSA

WARRANTY

- Two-year limited warranty included (excludes projectors)
- Extended warranties available

ACCESSORIES:

LAPTOP/KEYBOARD/MOUSE TRAY

Can be mounted on either side of any Model IRP 4500, with several height choices.

PEN/REMOTE CONTROL HOLDER

Attaches magnetically to Model IRP 4500 for convenient storage of IR Pen, spare battery and projector remote control.

CAMERA MOUNT

Allows mounting of most small video cameras on either side of a Model IRP 4500.

SOFTWARE

Webware™ Web Posting Software

PenOffice™ Handwriting Recognition Software
