

Clean My Board

The Care and Maintenance of Ceramicsteel Chalkboards and Markerboards.

- *P3 ceramicsteel*® surface by Alliance is a revolutionary, new development in ceramic finishes and marks the beginning of PolyVision's 3rd generation of ceramicsteel writing surfaces.
- Colors actually do make a difference. Extensive testing has demonstrated that the new *P3 ceramicsteel* markerboard and chalkboard color range further optimizes the existing benefits of writeability, erasability, and cleanability.
- You will get less chalk dust for the same amount of writing. The new *P3 ceramicsteel* chalkboard surface consumes 40% less chalk than competitive surfaces providing significantly less dust and residue.
- All Alliance Ceramicsteel writing surfaces carry our exclusive "Forever Warranty" which provides a lifetime guarantee.
- Alliance Ceramicsteel is the architecturally specified choice in writing surfaces because of the stringent tests (ASTM) required that strictly adhere to the guidelines of the Porcelain Enamel Institute (PEI).
- You will get a 25% improvement in dry erasability on our new *P3 ceramicsteel* markerboard surface leaving your board clear of ghosting after each use.
